TIMELINE OF CORPORATE VIDEOS

Intergraph Corporation is the leading global provider of engineering and geospatial software that enables customers to visualize complex data. Businesses and governments in more than 60 countries rely on Intergraph's industry-specific software to organize vast amounts of data into understandabe visual representations and actionable intelligence. Intergraph's software and services empower customers to build and operate more efficient plants and ships, create intelligent maps, and protect critical infrastructure and millions of people around the world.

Vision, Mission, Core Values

Our mission is to empower governments and businesses around the world to make better, faster operational decisions. Through superior software and services, we enable our customers to organize vast amounts of complex data into understandable visual representations.

Intergraph technology enables our customers to make the world safer and more prosperous. We create intelligent maps, manage assets and infrastructure, build and operate better plants and ships, and dispatch emergency services to those in need. We seek to earn the respect and trust of our customers through a total commitment
