## Superfood Spotlight

Quinoa

Forget meat or protein shakes;  
quinoa (pronounced keen-wa)  
contains more protein than any  
other grain.

## Herbs &amp; Spices

Cinnamon

Cinnamon has been used by many  
ancient cultures. Lab studies have  
found that it may reduce inflammation,  
have antioxidant effects and  
remarkable anti-fungal and anti-bacterial  
properties. Some studies have  
shown that Cinnamon helps people  
with diabetes metabolise sugar  
better.

## HEALTH SPOTLIGHT

## Food for thought

We are what we eat

Being healthy relies on lifestyle choices and habits, one of which is having a well-balanced diet full of foods with nutrients and compounds that are good for the body. Food can help you lose weight, improve sleep, encourage muscle development, improve physical, mental and emotional health, and even help prevent or lessen the risk of mild to life-

threatening diseases.

By educating our users, we increase loyalty. We would sell more supplements by listing the benefits, uses, contraindications, etc. Topics could include info on Diabetes control, resveratrol, milk thistle, psyllium, turmeric, and other anti-inflammatory herbs and spices... Aware and happy customers spend more!
